

St Joseph Engineering College, Mangalore

St Joseph Engineering College (SJEC) is an autonomous institute under Visvesvaraya Technological University, Belagavi, Karnataka State, recognized by the All-India Council for Technical Education (AICTE), New Delhi. SJEC is registered under the trust "Diocese of Mangalore, Social Action Department."

Established in 2002, the college offers top-class education in Engineering, Business Administration, and Computer Applications at UG, PG, and research levels. It has well-qualified staff, state-of-the-art laboratories, and all necessary facilities. Presently, about 3,000 students are studying at the college.

The UGC granted autonomous status to the institute in 2021. At SJEC, the OBE system has been implemented since 2011. Four of the BE programs, namely Civil Engineering, Mechanical Engineering, Electronics and Communication Engineering, and Electrical & Electronics Engineering, along with two PG programs, Master of Business Administration and Master of Computer Applications, have full accreditation from the NBA. Additionally, the institution has been accredited with an A+ grade by NAAC, valid until February 2026.

The college offers a wide variety of co-curricular and extracurricular activities, which give students a head start in developing their personality and imparting decision-making and leadership skills. The Campus Placement Department assists students in securing good jobs.

The Motto of St Joseph Engineering College is

"SERVICE & EXCELLENCE"

That is the motto of St. Joseph Engineering College. An SJEC education provides students with the tools to realise their potential and the courage and vision to use this education in service of humanity.

Academics, Sports, Arts and opportunities for practical applications of all these contribute greatly towards holistic development of our students. Education at SJEC encourages curiosity, persistence and passion for knowledge through teaching, mentoring and caring for our students.

Vision

To be a global premier institution of professional education and research.

Mission

- Provide opportunities to deserving students of all communities, the Christian students in particular for quality professional education.

- Design and deliver curricula to meet the national and global changing needs through student-centric learning methodologies.
- Attract, nurture and retain the best faculty and technical manpower.
- Consolidate the state-of-art infrastructure and equipment for teaching and research activities.
- Promote all round personality development of the students through interaction with alumni, academia and industry.
- Strengthen the Educational Social Responsibilities (ESR) of the institution.

The College Crest

- The College Crest depicts St. Joseph, foster father of Jesus. By his willingness to look after Jesus, he set an example of self-negating service and obedience. As a professional carpenter, he set an example of hard work. He trained Jesus to build a sound physique in order to prepare him for the rigours of his public ministry leading to his death on the cross.
- The College desires that students of St. Joseph Engineering College imbibe the quality of his refined service and excel in academic life.

About SJEC Objectives

- Provide Quality Technical Education facilities to every student admitted to the College and facilitate the development of all round personality of the students.
- Provide most competent staff and excellent support facilities like laboratory, library and internet required for good education on a continuous basis.
- Encourage organizing and participation of staff and students in in-house and outside Training programmes, seminars, conferences and workshops on continuous basis.
- Provide incentives and encouragement to motivate staff and students to actively involve in research-innovative projects in collaboration with industry and R&D centres on continuous basis.

- Invite more and more number of persons from industry from India and abroad for collaboration and promote Industry-Institute Partnership.
- Encourage consultancy and testing and respond to the needs of the immediate neighbourhood.

Strategic Plan

- The Institutional Development Strategies align with the College's vision and mission and are formulated using a bottom-up and top-down approach based on feedback from all stakeholders. In order to guarantee the seamless implementation of the strategic objectives, the departmental missions also reflect the college mission.
- In order to facilitate a seamless deployment and thorough follow-up, great care is taken at every level to ensure that the strategic plans are properly documented. Every committee has well defined tasks and responsibilities that specify the boundaries of each activity. The approach was designed to guarantee that each committee submits the budget and action plans for each academic year. This enables the management to make the best use possible of every resource that is accessible. Every faculty member is also required to submit an annual action plan to improve the department and institution; this plan is then evaluated and improved for overall growth.
- Every department does a SWOT analysis, which is then presented to management for discussion in order to formulate strategy. The team is able to capitalize on its collective strengths, identify its areas of weakness, seize opportunities, and combat threats thanks to the SWOT analysis. Additionally, Academic and Administrative Audits (AAA) are carried out to determine the department's SWOT and help it align with the goals of the college.
- In order to guarantee graduate attributes as specified by the statutory bodies, each department/program has established the Programme Educational Objectives (PEOs), Programme Outcomes (POs), Course Outcomes (COs), and Topic Learning Outcomes (TLOs). To monitor the implementation, course files and an extensive AAA are set up.

Status as on 26 October 2023

Short Term Goals

1. Obtain autonomy for academic programmes – Completed
2. Strengthen Industry-Institution interaction through Industrial training programmes – Ongoing
3. Start Tinkering and Engineering Exploration Labs in First Year and build it into an Experiential Learning Course over the next four years – Completed
4. Upgrade more than 20% of faculty qualifications to PhD-Level – Yet to Begin
5. Provide consultancy services in the fields of Mechanical and Civil Engineering – Ongoing
6. Seek funds for research & development from AICTE, DST and other agencies – Ongoing
7. Enter MOU with Institutions of national importance like IIT, NIT, IIIT and other R&D organizations – Ongoing
8. Encourage startups through Tech Hackathons, makers space, and incubation facilities – Completed
9. Spur community engagement through developmental projects in adopted villages – Completed

Long Term Goals

10. Establish centers of excellence in all major departments – Ongoing
11. Generate intellectual property through research – Ongoing
12. Upgrade qualifications of all faculty to PhD level – Ongoing
13. Develop an indoor sports facility – Yet to Begin
14. Create a state-of-the-art knowledge center – Yet to Begin
15. Establish tie-ups with reputed international universities for exchange programmes – Ongoing
16. Attain Deemed University status – Yet to Begin

Core Values of the Institution

Service

A Josephite will keep service as the prime goal in everything that is undertaken. Meeting the needs of the stakeholders will be the prime focus of all our endeavors.

Excellence

A Josephite will not only endeavor to serve, but serve with excellence. Preparing rigorously to excel in whatever we do will be our hallmark.

Accountability

Every member of the SJEC Family will be guided to deliver on assurances given within the constraints set. A Josephite will always keep budgets and deadlines in mind when delivering a service.

Continuous Adaptation

Every member of the SJEC Family will strive to provide reliable and continuous service by adapting to the changing environment.

Collaboration

A Josephite will always seek to collaborate with others and be a team-player in the service of the stakeholders.

Student Technical Club Policy

1.0 PURPOSE OF STUDENT TECHNICAL CLUBS

The student technical clubs provide a platform for students to explore and enhance their technical skills, collaborate on projects, and engage in activities related to their fields of interest. The purpose of establishing student technical clubs on campus is multi-fold:

1.1 skill Development: The clubs provide a platform for students to develop and enhance their technical skills in specific areas of interest. Through workshops, hands-on projects, and collaborative activities, students gain practical experience and deepen their understanding of the subject matter.

1.2 Networking and Collaboration: Student technical clubs facilitate networking and collaboration among like-minded individuals. By joining these clubs, students can connect with peers who share similar interests, exchange knowledge, and collaborate on projects. This fosters a sense of community and encourages teamwork and interdisciplinary collaboration.

1.3 Practical Application of Knowledge: Technical clubs provide students with opportunities to apply the theoretical knowledge gained in classrooms to real-world scenarios. By engaging in practical projects and activities, students

can bridge the gap between theory and practice, thereby enhancing their problem-solving abilities and critical thinking skills.

1.4 Career Exploration and Development: Being part of a technical club exposes students to various aspects of their chosen field and offers insights into potential career paths.

1.5 Leadership and Professional Development: Student technical clubs provide a platform for students to develop leadership and organizational skills. These experiences contribute to their personal and professional development.

1.6 Supplementing Formal Education: Technical clubs complement the formal education provided by academic departments. They offer a more informal and interactive learning environment, allowing students to delve deeper into specific technical areas and explore topics beyond the scope of their regular coursework.

1.7 Personal Growth and Personal Projects: Technical clubs encourage students to pursue their personal projects and ideas. They provide a supportive environment where students can experiment, innovate, and bring their ideas to life. This fosters creativity, self-expression, and personal growth.

1.8 It is important for all clubs to properly understand the purpose for which they have been set up. Ensuring that there are developmental efforts in each club to bring out practical applications which impact the society/industry is important. If clubs engage only in building contraptions and models which are utilized to prove superiority in competitions, without ensuring practical application in terms of building innovative equipment, mechanisms, patents, services and such concrete artefacts that are useful for someone, somewhere, then they would be seen as deviating from the very purpose for which they have been set up.

The purpose of this policy is to establish guidelines and procedures for the operation of student technical clubs on campus

2.0 ACTIVITIES CALENDAR AND ANNUAL BUDGET

2.1 Every year, by the second week of January, the student technical groups on campus are obliged to submit a full Annual Activities Calendar. The Calendar must include membership drive dates and details, both internal and external events planned, participation in the external events and any other activities.

2.2 It is a mandate for the clubs to conduct at least three activities per year, preferably hands-on training for new members or students who are not club members, so that they can join the club later.

2.3 The number of competitions targeted outside the College should be minimal and carefully selected in advance. Participating in all competitions that come up, without prior planning and at short notice, is strictly prohibited.

2.4 Any deviation from the calendar will attract reduced support in the upcoming year. Every activity must be discussed with the club adviser and have their consent.

2.5 The clubs are required to submit a detailed annual budget to the management through faculty advisor and respective Head of the Department (HoD). The budget should include estimated expenses for every activity with a proper justification. The budgeting exercise normally takes place in February every year.

2.6 The documents submitted along with the annual budget should also include the stock register of the components, tools and equipment, and expenditure details of the previous year.

2.7 By the third week of February, each of the clubs must ensure that their Annual Calendar of Activities Planned along with the Budget Proposed is submitted to their respective HoD for inclusion into the departmental budget.

3.0 OPERATIONAL HOURS

3.1 Normally, students are permitted to work till 7:30 PM. In special circumstances, such as during project crunch times, event preparations, or competition deadlines, students are allowed to extend the operational hours upto 10:00 PM, for a limited duration, provided due prior permission is taken from the Assistant Director, by filling in the relevant permission Form which will be notified.

3.2 Students living in hostels should provide a copy of the approved Permission Form to their respective wardens, well in advance.

3.3 Clubs should adhere to all policies or guidelines established by the College administration regarding club operations and operating hours. These policies may include regulations related to building access, noise levels, and safety considerations.

3.4 Any justification for skipping regular classes or labs due to club work that involves late hours or missing classes in order to attend club work will not be accepted. In these situations, the specific student(s) and club leadership are responsible for any potential repercussions from the associated department or management.

4.0 INTERACTION WITH EXTERNAL INDIVIDUAL/AGENCY

4.1 The institution encourages the student clubs to engage with external individual/agency in order to develop their club activities. At the same time, it is very important to ensure that interactions are productive, ethical, and beneficial for all parties involved while upholding the institution's values and objectives.

4.2 .External Individuals/Organizations': Refers to individuals or organizations outside the SJEC, including industry professionals, guest speakers, sponsors, alumni, and any other entities. Interaction: Any form of engagement, communication, collaboration, or partnership between the technical student club and external individuals/organizations.

4.3 The clubs must adhere to the following guidelines while interacting with an external individual/organization :

4.3.1. Alumni Engagement: Clubs may engage with alumni who are willing to contribute their expertise, mentorship, or resources to support the club's activities. These interactions should promote a strong alumni network and provide valuable guidance to current club members. The club leadership must inform the club adviser well in advance about any such interactions.

4.3.2. Sponsorships and Funding: Clubs may seek sponsorships or financial support from external organizations. These relationships should be transparent, ethical, and in accordance with Institution policies and guidelines. Such interactions must be informed to club adviser and management well in advance. Without prior notification and approval from the management, contacting any external person or organization for sponsorship or financing will be regarded as a compromise of the sponsorship potential of the institution and the budget allocation from the College for the specific club will be reduced by the amount received through sponsorship in that specific case. Amounts received through sponsorships should not be regarded as

funds to be sanctioned without accountability. The same accountability and approvals are applicable to sponsorship funds, as applicable to those allocated through the College budget.

4.3.3. Documentation: Clubs should maintain appropriate records and documentation related to interactions with external individuals/organizations, including agreements, sponsorship details, and any other relevant correspondence

4.3.4. Industry Collaborations: Clubs may engage in collaborative projects, internships, or research initiatives with external organizations or industry partners. All such interactions should receive prior approval from the club's faculty advisor and management.

4.3.5. Legal and Liability Considerations: Clubs should consider legal and liability aspects related to their interactions with external individuals/organizations and consult club's faculty advisor and management if necessary

5.0 PROCUREMENT AND STOCK MANAGEMENT

5.1 It is mandatory to get a purchase order generated from the College, for goods or services required to be purchased, prior to placing an order for such goods or services. Obtaining goods or services without issuance of an official purchase order will deem it to be a personal purchase by the person who placed the order and they will be held responsible for payment of the related purchase.

5.2 Any purchase or procurement should be made known to the faculty adviser. The faculty adviser should be consulted before sending any purchase requests or letters to the management.

5.3 Club members or any other person must not use their personal accounts to make any payments or transactions. Every transaction must go through the College Accounts section. Any violation could result in the offender being charged for the transaction personally.

5.4 Make every reasonable effort to obtain a best offer from the vendor and have a proper justification for selection of vendor.

5.5 A minimum of THREE quotations will be required for effecting the purchase on competitive rates. If it is not possible to obtain three quotations, then the reasons are to be recorded and approved by the faculty adviser. (For this purpose a firm will be considered sole manufacturer only if no other firm is manufacturing that item with any other brand/name). Quotations should not be more than a month old from the date of the purchase request.

5.6 As far as possible the payment terms be negotiated in such a way that the firms are persuaded to effect the supply on bill basis or at the most accept 90% payment against delivery and the balance 10% payment be made within 30 days after the supply/ installation of material/ equipment to our satisfaction.

5.7. To ensure that the firms do not hesitate from supplying the material on bill basis and to enlist their full cooperation and to earn goodwill, it should be ensured that the payment of all bills should be made within the stipulated period. where no period is stipulated, it should be ensured that the payment is released at the earliest possible.

5.8. It is mandatory to maintain a stock register detailing the procurement, consumption and disposal of materials and equipment. Annual Stock Verification will be conducted usually in the month of December and if things are not in order, the members concerned will be held responsible. 6.0 CODE OF CONDUCT 6.1 All club members must adhere to code of conduct of the campus and follow the guidelines set forth by the club. Respect, inclusivity, and professionalism should be maintained at all times during club activities and interactions. 6.2 Clubs should conduct an annual review of their activities and submit a report to the management by December of every year, highlighting their achievements, challenges faced, and tentative plans for the upcoming year.

SJEC RESEARCH POLICY

1.1. Context and Institution Mission

1.1.1. The core mission of St. Joseph Engineering College is

- Provide opportunities to deserving students of all communities, the Christian students in particular, for quality professional education.
- Design and deliver curricula to meet the national and global changing needs through student-centric learning methodologies.
- Attract, nurture, and retain the best faculty and technical manpower.
- Consolidate the state-of-art infrastructure and equipment for teaching and research activities.
- Promote all-round personality development of the students through interaction with alumni, academia, and industry.
- Strengthen the Educational Social Responsibilities (ESR) of the Institution.

1.1.2. The Institution is committed to foster a research culture by encouraging research initiatives across engineering programs, basic science, business administration, and computer applications through seed money, research incentives, preincubation/incubation facilities, etc

1.2. Purpose of the Research Policy

1.2.1 Research is one of the core missions of St. Joseph Engineering College and it believes that research directly contributes to social well-being, health, culture, economic development and the advancement of society. Research can flourish only in a climate of academic freedom, which includes freedom of inquiry and the right to disseminate the results thereof, freedom to challenge conventional thought, freedom from institutional censorship, and the privilege of conducting research on human and animal subjects. However, with academic freedom comes the responsibility to ensure that all research: is informed by the principles of honesty, integrity, trust,

accountability, and collegiality; meets high scientific and ethical standards; is conducted with honest and thoughtful inquiry, rigorous analysis, and accountability for the use of professional standards; and seeks to increase knowledge in ways that do not harm but which benefit society.

1.2.2 The cultivation of research environment in the institute is advanced by providing department seed money, research incentives, financial assistance to various student clubs, encouraging the faculties to form research groups etc. For the smooth conduction of research in the institute, adopting and following appropriate policies is necessary. This Research Policy establishes a general framework for the conduct of research. It is premised on individual responsibility for the selection and conduct of research as individual members of the institute are best positioned, through special knowledge, to be aware of both the manner in which their research is being conducted and the consequences of such activity. Special responsibility rests with Researchers to remain aware of their research implications and balance the potential benefits against the possibility of harmful applications.

1.2.3 This Research Policy should be interpreted in a manner that is consistent with the vision of the institute as a research and scholarly community committed to the principles of academic freedom, honesty, integrity, trust, accountability and collegiality, and the idea that fair play must prevail at all times.

1.2.4 This Regulation does not replace the policies and guidelines of agencies sponsoring research or which have oversight of particular research activities

ARTICLE 2 - DEFINITIONS

Without prejudice to any applicable laws, in this Policy, the definitions set out below shall apply:

Agency: means the funding agency, foundation, organization, sponsor or other person, public or private, international, national, provincial or foreign, supported in whole or in part any research, or which has oversight of any research.

Chair means the head of a department or research centre and includes the chairs of all such units within which a researcher undertakes research.

Corresponding Author means: (i) the researcher so identified by agreement of Research Collaborators; or (ii) in the absence of agreement, the researcher who submits a manuscript for publication.

Data means the recorded factual information and material, both physical and electronic, commonly accepted in the relevant scientific community as necessary to validate research findings including, but not limited to, research proposals, laboratory records, progress reports, internal reports, and presentations.

Gift means a voluntary transfer of property without valuable consideration or benefit of any kind to the donor or any person designated by the donor.

Legal person includes corporations, partnerships, associations, foundations, organizations, government agencies, and any other entity or body

Plagiarism means the representation of another's work, published or unpublished, as one's own or assisting another in representing another's work, published or unpublished, as his or her own.

Principal Investigator means the researcher who is so identified to an Agency or, in the absence of such identification, the researcher who has primary responsibility for the design, conduct and supervision of research.

Regulatory Framework the regulations, policies and guidelines of the institute concerning the conduct of research and related matters as they may exist from time to time.

Research includes all forms of funded and unfunded scholarly, scientific and professional work and related activities based on intellectual investigation aimed at discovering, interpreting, revising, disseminating or publishing knowledge.

Research Related Agreement includes international project agreements, licensing agreements, Research agreements, Research contracts, Research grant applications, Research grant agreements, service agreements, shareholder agreements, clinical trial agreements, confidentiality agreements, material transfer agreements, partnership program agreements, collaborative Research development agreements, inter-institutional Research agreements, and industrial Research chair agreements and any document accessory to such agreements.

Research Misconduct includes, but is not limited to the definitions of the funding agencies for such misconduct, for example fabrication, falsification, plagiarism, misappropriation of intellectual property rights of another, or any other conduct that constitutes a significant departure from the ethical and other standards that are commonly accepted within the relevant research community for proposing, performing, reporting or reviewing research or treating human and animal research subjects, but does not include honest errors or differences of interpretation or judgment relating to Data or Results that are reasonable in light of the circumstances in which they are made or reached.

Researcher means any member of the institute who engages in or supervises research.

Student means a student as defined in the Code of Student Conduct and Disciplinary Procedures.

ARTICLE 3 – SCOPE OF THE POLICY

3.1. This Policy applies to all research conducted in St. Joseph Engineering College

ARTICLE 4 – BASIC OBLIGATIONS

4.1. The primary responsibility for the selection and conducts of research shall rest with the researcher, and to this end he or she shall:

4.1.1 maintain the highest standards of honesty, integrity, and ethical behaviour in all research;

4.1.2 familiarize himself or herself with and abide by the Regulatory Framework and the regulations, policies and guidelines of any Agency relevant to his or her research;

4.1.3 not misrepresent his or her academic, professional, or employment credentials or experience;

4.1.4 obtain necessary approvals including, but not limited to, ethics, protocol, and standard operating procedure approvals, before engaging in a Research activity for which prior approval is necessary; and

4.1.5 use scholarly and scientific rigor and integrity to obtain, record, and analyze data and report and publish results.

4.2 The institute shall take reasonable measures to ensure that researchers are made aware of and kept informed of changes to the Regulatory Framework relevant to research.

4.3. In the case of collaborative or team research, the Principal Investigator shall take reasonable measures to ensure that the members of the Research group or team are aware of and comply with the Regulatory Framework relevant to the research being undertaken.

4.4. The Head of Research center or department shall put in place reasonable measures to ensure that Students who may engage in research are aware of:

4.4.1 their obligations in respect of academic integrity and the ethical conduct of research;

4.4.2 the Regulatory Framework relevant to their research.

4.5. A supervisor of Students engaged in research shall take reasonable measures to:

4.5.1 ensure that the Students have been advised of their obligations in respect of academic integrity and the ethical conduct of research;

4.5.2 ensure that the Students have received a copy of the Regulatory Framework relevant to their particular research;

4.5.3 provide the Students with a copy of any research related documents which the Students have been asked to sign; and

4.5.4 disclose to the Students any special conditions concerning such matters as constraints on publication, limitations on the future use of Data, and ownership of intellectual property [refer SJEC INTELLECTUAL PROPERTY POLICY] that may influence a Student's decision to participate in the research.

4.6 A Researcher engaged in research external to the institute, which is not part of her or his academic duties shall act with integrity and adhere to the highest ethical standards.

4.7 A Researcher who engages in research which is not part of his or her academic duties for Persons external to the institute shall:

4.7.1 comply with the disclosure requirements of the Regulatory Framework governing conflicts of interest, and conflicts of commitment and consulting activities; and

4.7.2 advise in writing the person on behalf of whom such activities are undertaken that the researcher is acting in his or her private capacity, and not as an employee or representative of the institute unless the researcher has been expressly authorized in writing so to act by his or her Chair;

4.7.3 not make use of institute personnel or Students, or more than minimal use of services, facilities, equipment or supplies in such research without, in advance of such use:

(a) obtaining written approval for such use from the Chair and Principal; and

(b) making appropriate written financial arrangements to reimburse the institute in advance of such use.

4.7.4 Where appropriate, prior to granting approval pursuant to section 4.6, the Chair shall consult with the Principal or Director of the institute.

4.8 A Researcher shall ensure that publications do not misrepresent data or images and that the nature and purpose of any image manipulation is explained.

4.9 A Researcher shall comply with the accepted practice of his or her discipline relating to the publication of research, including those constraining:

(i) the submission of manuscripts to two or more journals; and (ii) the duplicate publication of Data or a manuscript.

4.10 A Researcher shall not enter into or participate in any arrangement whereby an Agency or Person with a vested interest in the findings of the research may:

- (i) suppress any findings of the research; or
- (ii) withhold information that may have a bearing on the interpretation of the findings

4.11 A Researcher normally shall not enter into an arrangement with a Person to write or contribute to a publication without the Researcher's contribution being publicly acknowledged. Such an arrangement is only acceptable if the Researcher if so requested, is prepared to be publicly associated with the publication.

4.11.1 Subject to section 4.7, a Researcher shall acknowledge his or her affiliation with the institute in all publications resulting from research undertaken while a member of the institute.

4.11.2 A Researcher who is no longer a member of the institute shall cease to indicate in publications, other than those resulting from research performed while a member of the institute, his or her affiliation with the institute in the absence of prior written approval of the chair.

ARTICLE 5 – RESEARCH DATA

5.1 A Researcher shall collect Data concerning human and animal subjects in accordance with the Regulatory Framework governing the use of such subjects.

5.2 A Researcher shall respect the laws governing access to personal information and privacy in his or her collection and use of Data.

5.3 A Student may engage in research in which use of certain kinds of Data, in the custody of a government or person, is restricted provided that:

5.3.1 the eventual publication of research based on the Data is permitted; and

5.3.2 subject to section 5.3.3, any delay in the publication does not exceed one year.

5.3.3 A request by a third party for a delay in the publication of research undertaken by a student for his or her thesis that exceeds one year may be agreed to only in exceptional cases and shall require:

- (i) the written consent of the Student; and
- (ii) the written approval of Head of Research center, Head of the department and the Principal

5.4 A Researcher shall not use or publish Data that he or she knows to be or has reasonable grounds to believe are false or of unknown provenance unless it is so identified.

5.5 A Researcher shall organize his or her Data in a manner that allows for its verification by third parties.

5.6 Retention of Research Data

5.6.1 A Researcher shall retain Data in conformity with best practice in his or her discipline and for:

- (i) the period specified by the Agency supporting the research; or
- (ii) in the absence of an Agency specification, a period of seven years from the publication of the Data.

5.6.2 Each department or research center shall establish procedures appropriate to its needs to retain and record Data.

5.6.3 Data shall be retained by a Principal Investigator or the department or research centre in which they were generated as agreed by the Principal Investigator and his or her Chair.

5.6.4 A Researcher who ceases to be a member of the institute shall deposit his or her Data with the department or research center where the Data were generated unless alternative written arrangements are made with his or her Chair.

5.6.5 In the event that a Principal Investigator cannot retain data obtained from a limited-access database or under a Research Related Agreement, the Principal Investigator must provide the Chair in writing with the location of the Data or the limited-access database.

5.7 Access to Research Data

5.7.1 Subject to exceptions based on a duty of confidentiality and the laws respecting intellectual property and access to information, a Researcher shall make his or her Data available after publication to an Agency or established scientific or scholarly journal presenting a reasonable and legitimate written request to examine the Data.

5.4.7.2 Where there is a disagreement between the Researcher and the Agency or journal requesting the Data, the disagreement shall be referred for resolution: (i) first to the head of the research center or department; (ii) then, if necessary, to the Principal

5.8 Collaborative Data

5.8.1 Research collaborators, at the commencement of their collaboration, shall make all reasonable efforts to reach an agreement, preferably in writing, that is consistent with the law and the Regulatory Framework relating to intellectual property, on their rights to, and future use of, Data.

5.8.2 In the absence of an agreement between Research collaborators, their rights to and future use of the Data shall be governed by the law and the Regulatory Framework relating to intellectual property [refer SJEC INTELLECTUAL PROPERTY POLICY].

5.8.3 In the event that a dispute should arise between Research collaborators concerning rights to and future use of the Data, the institute shall assist in facilitating the resolution of a dispute in accordance with section 7.5.

ARTICLE 6 – USE OF OTHERS’ WORK

6.1. A Researcher shall not knowingly engage in Plagiarism.

6.1.1 Upon the demonstration that a Researcher has engaged in Plagiarism it shall be presumed that the Researcher did so knowingly, and he or she shall bear the burden of rebutting the presumption by evidence satisfying the person or body investigating the matter that no such knowledge existed.

6.2 A Researcher shall obtain the prior permission of another Person before using, even with proper attribution, the other person's unpublished work or Data.

6.2.1 Notwithstanding section 6.2, where a Researcher has obtained access to unpublished information, concepts or Data through access to confidential information or documents, including material obtained by the Researcher as part of processes such as peer review, the research shall not use such information, concepts or Data without the prior written permission of the author.

6.3 A Researcher shall not enter into, or participate in, any arrangement whereby an Agency or other Person may have exclusive use of, or access to, the Data of a Research collaborator, whether with or without proper attribution, without the Research collaborator’s prior written informed consent.

6.4 A Researcher shall use archival material in accordance with the rules of the archival source.

ARTICLE 7 – COLLABORATIVE RESEARCH

7.1 A Researcher shall recognize in an appropriate form or manner in his or her publications the substantive contributions of all Research collaborators, including Students.

7.2 Authorship

7.2.1 A Researcher shall ensure that authorship of published work includes all those and only those who have made significant scholarly contributions to the work and who share responsibility and accountability for the results.

7.2.2 A Researcher shall ensure that where a co-authored publication is based primarily on a student's work, including a dissertation or thesis, the Student is granted due prominence in the list of co-authors in accordance with the established practices of the discipline.

7.2.3 In the absence of an agreement between Research collaborators, the following rules shall govern the order of attribution of authorship:

- (i) authorship shall be attributed to all those Researchers who have made significant scholarly contributions to the work and who share responsibility and accountability for the results;
- (ii) attribution of authorship shall be determined according to: (a) the quality and quantity of a Researcher's contribution; (b) the extent of a Researcher's responsibility and accountability for the results; and (c) the best practices of the discipline;
- (iii) the order of attribution of authorship shall not be affected by whether a researcher was paid for his or her contribution or by his or her employment status.

7.2.4 A person who provides only administrative and/or managerial services to a collaborative Research endeavor shall not qualify for co-authorship.

7.3 Responsibilities of Corresponding Author 7.3.1 Prior to the submission of a manuscript for publication, the Corresponding Author shall:

- (i) ensure all persons who are entitled to co-authorship are included as co-authors;
- (ii) make a reasonable attempt to obtain the consent of the co-authors to the order of attribution of authorship;
- (iii) ensure that persons who have made useful contributions to the research which do not qualify them for co-authorship are appropriately acknowledged in accordance with the standards of the discipline and the publisher;
- (iv) provide each co-author an opportunity to comment on the manuscript prior to its submission for publication; and
- (v) provide each co-author with a copy of the manuscript submitted for publication.

7.4 Ownership of Intellectual Property

7.4.1 Subject to section 7.4.3, Research collaborators shall endeavor to reach an agreement consistent with the Regulatory Framework concerning the allocation of intellectual property [refer SJEC INTELLECTUAL PROPERTY POLICY].

7.4.2 Subject to section 7.4.3, in the absence of agreement between Research collaborators, the allocation of copyright shall be governed by the law and the Regulatory Framework relating to intellectual property.

7.4.3 In the event that an external Person has an interest in the research, the research collaborators, the institute and such person shall, following negotiations with the SJEC Intellectual Property Rights Cell (SJEC IPR Cell) and Research Committee, establish by contract:

- (i) ownership of intellectual property arising out of any Research Related Agreement;
- (ii) the rights and obligations of the parties to seek patents; and
- (iii) the entitlement of the parties to share in any associated royalties.

7.5 Disputes Resolution in Collaborative Research

7.5.1 The institute shall assist in facilitating the resolution of disputes between Research collaborators ("the disputants"), in accordance with section 7.5. The institute, however, has no obligation to ensure that such disputes are resolved.

7.5.2 Disputants shall first seek to resolve their dispute amicably between themselves using the good offices of the Principal Investigator if he or she is not a party to the dispute.

7.5.3 In the event that an amicable resolution of the dispute is not or cannot be achieved in accordance with section 7.5.2, the disputants shall refer the dispute to the Head of Research Centre or department, who shall attempt to resolve the dispute. As the case may be, the Head of Research Centre or department may appoint a senior member of the academic staff of the department or Faculty to act in his or her stead

7.5.4 If the dispute is not resolved in accordance with section 7.5.3, the disputants shall seek the Principal's assistance in achieving a resolution. The Principal may appoint a senior member of the academic staff to act in his or her stead.

7.5.5 The Principal or appointee may assist the disputants in selecting an internal or external mechanism for resolving their dispute on the

understanding that their involvement in any of these processes is without prejudice to the disputants' rights in any subsequent internal or external process.

7.5.6 Notwithstanding section 7.5.5, in the event, that a resolution acceptable to the disputants is reached:

(i) it shall be acknowledged by them in writing and in sufficient detail to allow for its implementation; and

(ii) it shall be deemed to be final, and the disputants thereby waive any further internal and external recourse based on the facts having given rise to the dispute.

7.5.7 Sections 7.5.1 through 7.5.6 do not apply to disputes that may arise because of alleged Research Misconduct or disagreement about the ownership of intellectual property rights that disputes shall be resolved respectively in accordance with the Regulatory Framework relating to intellectual property [refer SJEC INTELLECTUAL PROPERTY POLICY].

ARTICLE 8 – RESEARCH FUNDS

8.1 A Researcher shall ensure that all research funds administered by him or her are used with honesty, integrity, and accountability.

8.2 A Researcher, and those with oversight of funds and their use, shall comply with the Regulatory Framework and applicable Agency policies and guidelines relating to the management and disbursement of funds and reimbursements for expenses.

8.3 A Researcher shall not approve payment from any Agency or institute funds to, or the use of any institute personnel or any institute administered resources, services or materials for, a Person developing or using a Researcher's invention, software or other discovery unless such payment or use is expressly authorized in writing by the Agency and the institute.

8.4 A Researcher shall acknowledge, in all published works resulting from his or her Research, all Agencies and other public and private funding sources that supported their research.

ARTICLE 9 - RESEARCH INVOLVING HUMAN SUBJECTS

9.1 A Researcher conducting research involving human subjects shall:

(i) conduct such research in accordance with the highest ethical standards;

(ii) respect the legal and moral rights of the persons who are the subjects of the research; and

(iii) comply with the Regulatory Framework governing such research.

9.2 A Researcher shall not use the premises, facilities, or publications of the institute to recruit in any manner a member of the institute as a participant in medical testing or clinical trials involving human subjects without intimation to the Management.

9.3 A Researcher shall obtain the prior approval of a research ethics board before engaging in self-experimentation involving any element of risk to the Researcher whether or not the Researcher is the sole or one of the human subject participants.

9.4 A Researcher shall not accept any personal benefit (including a bonus or milestone payment) for:

- (i) enrolling a particular number of patients or for meeting a deadline in recruiting human subjects;
- (ii) a particular number of human subjects successfully completing the study or trial or for successfully completing it within a specific timeframe; (iii) assessing potential recruits for a study or a clinical trial in which the Researcher is involved.

ARTICLE 10 - SECRET RESEARCH

10.1. A Researcher shall not enter into any arrangement with any Person to conduct any Research under the auspices of the institute, or on institute premises or using Students, academic, administrative or support staff, or institute resources or facilities on the understanding that the conduct of the research is to be kept secret.

ARTICLE 11 - HAZARDOUS RESEARCH

11.1 A Researcher proposing to engage in Research activities that pose a recognizable inherent risk of accidental injury to persons or property shall:

- (i) comply with the Regulatory Framework governing the conduct of such activities;
- (ii) obtain all necessary approvals before accepting delivery of hazardous materials or embarking on the activities in question; and (iii) prior to the commencement of the activities, notify those who it is reasonably foreseeable may be placed at risk.

11.2 A Researcher engaged in a Research activity that poses a significant recognizable inherent risk of physical injury to persons or property who has reasonable cause to believe that injury to person or property has occurred or is imminent shall:

- (i) take appropriate measures to address the situation in accordance with the institute's emergency guidelines; and
- (ii) report the incident or potential threat to the Researcher's chair.

ARTICLE 12 - COMMERCIALIZATION OF RESEARCH

12.1. Without prejudice to the rights of a Researcher's collaborators or sponsors of research, a Researcher shall not be obliged to seek commercial development of his or her invention, software or other discovery. The institute shall respect the decision of a Researcher not to commercialize his or her invention, software, or other discovery.

12.2 A Researcher who elects not to seek the commercial development of an invention, software or other discovery may, in accordance with the Regulatory Framework governing intellectual property, permit its commercial development by his or her collaborators.

12.3 A Researcher who elects to develop an invention, software, or other discovery or to become involved directly in its commercial application shall comply with the Regulatory Framework governing intellectual property [refer SJEC INTELLECTUAL PROPERTY POLICY].

ARTICLE 13 - NEGOTIATION OF RESEARCH RELATED AGREEMENTS

13.1 All Research Related Agreements must be approved and executed according to the Regulatory Framework relating to the conclusion of such agreements.

ARTICLE 14 - CONFLICT OF INTEREST

14.1 A Researcher shall comply with the Regulatory Framework governing conflicts of interest and consulting activities.

14.2 A Researcher shall disclose to all relevant Persons (including other institutions, Agencies, conference organizers and participants, and journals and publishers) any conflict of interest that might influence such Persons' decisions such as whether a Researcher should be asked:

- (i) to review Research proposals, funding applications or manuscripts;
- (ii) to test inventions, software, or other discoveries;
- (iii) to present Research results; or
- (iv) to be permitted to undertake research sponsored by outside Persons

ARTICLE 15 - RESEARCH MISCONDUCT

15.1 Any action that is inconsistent with integrity, honesty, or the Regulatory Framework, including this Regulation, may constitute a disciplinary offense and, where appropriate, shall be investigated in accordance with the Regulatory Framework relating to the investigation of research misconduct or, where appropriate, the Code of Student Conduct and Disciplinary Procedures.

15.2 Nothing in the provisions of this Regulation is intended to impugn a Researcher for honest errors or for differences of interpretation or judgment relating to Data or results that are reasonable in light of the circumstances they are made or reached.

ARTICLE 16 - REVIEW OF REGULATION

16.1. Revision. This Policy may be amended at any time by a decision of the SJEC management or Research committee appointed by the former

SJEC INTELLECTUAL PROPERTY POLICY

President of SJEC

Bishop

Most Rev. Dr Peter Paul Saldanha

Bishop Most Rev. Dr. Peter Paul Saldanha was born in Our Lady of Remedies parish, Kirem, near Kinnigoli, Diocese of Mangalore, on 27th April, 1964. After his primary and secondary education in his village, he did his philosophy and theology at St. Joseph's Interdiocesan Seminary, Jeppu, Mangalore. He was ordained Priest on 6th May, 1991, for the Diocese of Mangalore. Later he obtained a diploma in Depth Psychology and Formation, from the Institute for Formators, Bangalore, in 1994. He also obtained a doctorate in theology from the Pontifical Urbanian University, Rome, in 2005.

The title of his doctoral thesis is: "Revelation as 'Self-communication' of God". Other than writing articles in national and international journals, he has also authored a book in Christian theology, titled: "The Church, Mystery of Love and Communion", published in 2014 from the Urbanian University Press. As a professor of theology, he has guided many students in their Masters and doctoral studies.

During his tenure as priest, he served the Diocese in the following ministries: Assistant Parish Priest at St. Lawrence's Church, Moodubelle (1991-1992); Assistant Parish Priest at Our Lady of Miracles Church, Milagres, Mangalore (1992-1994); Assistant Parish Priest at Our Lady of Dolours Church, Vittal (1994-1996); Teacher and Formator at St. Joseph's Interdiocesan Seminary, Jeppu (1996-1999) and at the same time, Vice Rector of the same Seminary (1997-1999). From 1999 to 2005 he did his studies in Rome, and on his return he was appointed Professor at St. Joseph's Interdiocesan Seminary, Jeppu (2005-2010), and from 2008-2010 also Vice Rector of the same Seminary.

Since 2010 he was Professor of Theology at the Pontifical Urbanian University, Rome. From 2011-2015, he was the Spiritual Father at the Pontificio Collegio Urbano De Propaganda Fide, Rome. On 14.03.2015 the Holy Father appointed him as Consultor of the Secretary General of the Synod of Bishops, and in July 2015 he was appointed as *Adiutor Secretarii Specialis* (Helper to the Special Secretary) of the XIV Ordinary General Assembly of the Synod of Bishops which dealt on the topic of family.

He was ordained bishop on September 15, 2018 at the Our Lady of Rosary Cathedral Grounds, Mangaluru. Bishop Saldanha speaks fluently in Konkani, Kannada, Tulu, English, Hindi and Italian. He reads easily in French

He is known for his simplicity and listening capacity. He promotes participatory type of leadership. He has taken keen interest in building bridges between various religious communities and promoting green movement. The teachings of Pope

Francis are highly prized by the Bishop and he has been drawing his inspiration from him.

Governing Body Members List (SJEC):

Most Rev. Dr Peter Paul Saldanha – Chairperson (Management Representative); Msgr Maxim Lawrence Noronha – Member (Management Representative); Rev. Fr Wilfred Prakash D'Souza – Member (Management Representative); Prof. Lionel Aranha – Member (Management Representative); Mr Pramod N. Fernandes – Member (Management Representative); Dr Biju Toms – Member (Management Representative); Dr Prakash Pinto – Member (Teacher Representative); Dr Sridevi Saralaya – Member (Teacher Representative); Dr John E D'Silva – Member (Administrative Staff Representative); Mr Anand Fernandes – Member (Education/Industry Representative); State Government Representative – Member (Position Vacant); Prof. K N Subramanya – Member (VTU Representative); Dr Rio D'Souza – Member Secretary and Principal (SJEC).

Director

Rev. Fr Wilfred Prakash D'Souza

Rev. Fr Wilfred Prakash D'Souza hails from Agrar, Mangaluru and was ordained as a Priest in 1997. He has served as an Assistant Parish in Bendoor and as a Parish Priest at Nerampady. Fr Prakash has served Father Muller Charitable Institutions as Assistant Director from 2003, following which in 2008 he was appointed as Administrator of Father Muller Homeopathic Medical College and Hospital. Fr Prakash has also served as Principal of St Joseph College – Jeppu for three years. He was on study leave for the past one year at St Rita Church, Cascia. Fr Prakash holds a Masters in Human Resource and Management and Post-Graduate Degrees in English and Counselling.

Fr Prakash joined SJEC on 22 nd May 2017 as Designate Director and after a month long understudy, took charge as Director of SJEC on 22 nd June 2017.

Under his able leadership, SJEC has scaled remarkable heights in its journey of growth and transformation. Notably, the institution secured NAAC Accreditation with an A+ grade in its very first cycle—a rare and prestigious achievement for an institution of its age. It was also during his tenure that SJEC attained Autonomous Institution status, paving the way for academic innovation, accelerated development, and excellence in higher education.

Fr Prakash cares deeply about environmental sustainability and has championed several green initiatives on the SJEC campus. Under his guidance, the institution has implemented successful projects in organic farming, animal husbandry, solar electrification, bio-composting, and other eco-friendly practices. These initiatives have significantly strengthened SJEC's commitment to environmental stewardship and have earned the institution multiple recognitions for its Green Campus initiatives.

Assistant Director

Fr Kenneth Rayner Crasta

Fr Kenneth Rayner Crasta hails from Bejai, Mangaluru. He completed his early schooling at Good Shepherd Convent School, Ammathi and Milagres High School, Mangaluru. He did his PU studies at St. Aloysius College, Mangaluru. He holds a Bachelor's degree in Mechanical Engineering from St Joseph Engineering College, Vamanjoor and a Bachelor's degree in Theological Studies from St. Pius X College, Goregaon East Mumbai. After completing his priestly formation, he was ordained a priest on the 14th of April 2015. Fr Kenneth has done MBA in Educational Leadership and Administration from Christ University, Bengaluru.

He served as an Assistant Parish Priest in Holy Rosary Church, Moodbidri - Alangar (2015-2017) and later as the Principal at St Joseph ITI, Jeppu (2019 to 2023). On the 16th of May 2023, he took charge as the Assistant Director of St Joseph Engineering College.

Principal

Dr. Rio D'Souza

B.E, M.Tech, ADAB, Ph.D

Dr Rio D'Souza earned his Bachelor degree in Electrical and Electronics Engineering in 1986 from Karnatak University, Dharwad. He earned his MTech in Computer Engineering in 2000 from Visveswaraya Technological University, Belgaum. He also holds an Advanced Diploma in Applied Bioinformatics from Bioinformatics Institute of India at Noida. In 2011, he completed his PhD from the Department of Computer Science and Engineering at NITK Surathkal, under the supervision of Dr K Chandra Sekaran and Dr A Kandasamy. In this connection he has worked in the field of Evolutionary Computing and Bioinformatics

Most of his work experience is in academics, except for about 7 years of industrial experience, out of which for 5 years he served as Project Manager for Jal International Corporation which is a large company engaged in Electrical and Instrumentation Contracting works in Saudi Arabia.

He has served as Lecturer for 5 years in the Electrical Engineering Department of Kalpataru Institute of Technology, Tiptur. He has also served as Assistant Professor in the MCA Department of St. Aloysius College, Mangalore, for 4 years and as a Teaching Fellow at NITK for a year and half. Since June 2006, he is with the Department of Computer Science and Engineering at SJEC, which he was heading till July 2009. Since July 2010, he has headed the Department of Computer Applications at SJEC and from February 2011, he has taken over as Dean-Academics of SJEC.

His research interests include Soft-Computing Technologies and Bioinformatics. He has been a resource person at several seminars and conferences. As of February 2011, he has 15 international journal and conference papers to his credit. He is also a keen enthusiast in E-learning and the application of Information Technology to Engineering Education.

Message to Students

Dear Student,

We welcome you to St Joseph Engineering College. We are delighted that you have chosen to pursue your professional studies at this premier institution, one of the best in the Dakshina Kannada region.

SJEC is a Christian Minority Institution that admits deserving students from all communities, supporting the aspirations and ambitions of young people, particularly those from disadvantaged backgrounds, who seek a better future. You have taken the first step in that direction—now it is up to you to continue your journey. Your education here will be truly fulfilling only if you take full advantage of the facilities we offer.

In academics, you will be guided by experienced and dedicated faculty. For every 20 students, there is a qualified teacher. Please meet them regularly and interact with them outside class hours. They are trained to help students resolve both academic and personal challenges. Additionally, every class has a Faculty Advisor, and each student is assigned a Mentor to support academic progress. The College Library provides access to comprehensive online resources, while the Central Computer Centre ensures internet connectivity through Wi-Fi systems in both academic blocks and hostels.

Make the most of the numerous forums available to develop and enhance your personality. Department associations and clubs organize intra- and inter-college events at both formal and informal levels. Participation in co-curricular activities will help you acquire communication, organizational, and leadership skills—essential for advancing your career. After class, spend time exercising on the field or in the gym. SJEC offers facilities for both indoor and outdoor sports and provides coaching to prepare students for VTU-sponsored sports and athletic events.

We acknowledge that technical education demands not only self-discipline and diligence but also emotional balance and well-being. Therefore, the college has a qualified, resident Campus Counsellor and Campus Minister to assist students. The College Chapel offers a space for solitude, meditation, and prayer. Catholic students are encouraged to participate in the early morning services conducted daily.

Finally, you are a Josephite! Our motto is Service and Excellence. We expect and encourage you to imbibe these values during your time on campus, as they will play a pivotal role in your academic success and future career.

Good luck for your studies!

Anti Ragging

The Government of Karnataka has made ragging a cognizable offence punishable with imprisonment and holds the Principal responsible for making the College ragging-free. VTU is keeping a strict vigil to prevent any sort of ragging. Under the direction of the Supreme Court of India, authorities have asked colleges to take necessary measures to prevent ragging. Students are severely warned that:

- Ragging of any kind is strictly prohibited by law inside the campus and outside.
- Offenders will be dismissed from the College and the hostel, and reported to the police.
- Photographs of offenders will not only be displayed on the notice board, but also published in newspapers.
- Offenders cannot appear for university examinations.
- Names of offenders will be sent to VTU, which will record the fact in the marks card.

Please do not be misguided. There is no such things as friendly ragging or mild ragging. All forms of ragging are de-humanizing and go against the core of the value system which our students must develop. The College will not take a lenient view of any offence of ragging.

The College has formed an ANTI-RAGGING FLYING SQUAD with Mr Franco Aldrin Menezes as the coordinator. Apart from senior teachers and senior students as members, media persons and the police authorities are represented in the committee. Freshers are advised to make a note of their names (it is good to memorize at least a few telephone numbers) given below. Please do not hesitate to approach them. They will keep your names confidential.

24 hrs Anti-ragging toll free help lines: 1800-180-5522 & 15522

The identity of the student will be protected . The process of giving them assistance will start within 15 minutes. Complaints can be registered through

Email : helpline@antiragging.net

The College Anthem

Josephites, we march together holding hand in hand

In service with excellence as one united band

Brighten shall we our world, that's our endeavour

Lighten one another's burdens, we will strive for ever.

Excellence and Service, high up our motto hold

In St. Joseph's foot-steps to walk, we all make bold

Josephites together, we'll build a world of peace

Brothers, sisters, all united, one in thoughts and deeds.

Technical manpower will meet ever changing need

Competence, love and skill, will be great boons, indeed

Creation, innovation in God's wide, holy world

Will make us instruments of Peace and sweetest Joy untold
